VANESSA YEUNG

WORK EXPERIENCE

Frontend Developer

JIBE Multimedia | Remote | July 2021- present

Tech stack: TypeScript | React/Next.js | Vercel | Cypress |
Styled Components | Storybook | Headless CMS

- Develop, test and maintain scalable Headless eCommerce projects involving 3rd party integrations
- Create, maintain and integrate an in-house component library/SDK (Compass), including UI visual testing in Storybook
- Provide task scoping, estimations and technical lead for projects

Digital Contractor

Kirin Restaurants | Vancouver, BC | Oct 2020 - Jan 2021

- Involved in planning and developing the company's eCommerce website (Shopify)
- Established and launched social media presence, obtaining over 450 Instagram followers over two months

Marketing Assistant

École hôtélieré de Lausanne | Switzerland | Sep 2014- Feb 2017

- Designed high-quality digital and print collateral using Adobe InDesign
- Collaborated with various departments to create event material including floor plans, banners, and signage

PROJECTS

GlassWalls, April 2021

Stack: React, Node.js, Express, PostgreSQL, Material UI, Leaflet

- GlassWalls is a full-stack apartment review app designed with RESTful routes and Leaflet map integration

Scheduler, March 2021

Stack: React, Node.js, Express, Storybook, Cypress/Jest

- Scheduler is a single-page React app that allows students and instructors to book interview appointments
